

Lilavati Hospital and Research Centre

More than Healthcare, Human Care

NABH Accredited Healthcare Provider

Straighten
your **teeth** with
Invisible
Aligners

**What are
Invisible Aligners?**

Made with unique
technology these virtually
invisible aligners gradually
and predictably move your
teeth to an ideal position

How to get your Aligners?

Treatment plan is created by the Orthodontist with the help of photos, X-Rays and digital scans or dental impressions

Virtual customised 3D treatment plan is prepared predicting final result and duration of the treatment.

Custom made Aligners are given to the patient to be worn minimum 22 hours per day. Typically, 3-4 sets of Aligners are given per appointment.

Appointments are scheduled once every 8-10 weeks to monitor progress of the treatment.

Treatable cases

Invisible aligners can be used to treat a range of moderate to severe teeth straightening issues such as:

Crossbite

Deepbite

Spaces between teeth

Openbite

And many other different conditions

Advantages of Invisible Aligners

- › Transforms smiles without braces
- › Freedom to eat anything
- › Easily removable
- › Suitable for all age groups
